

1. Game Mechanics

Tavern:

Serve drinks

When serving drinks if you use the in-game recipe book you will earn significantly less money on your tip. So if you don't remember a recipe, just tab out and look at the chart here so you don't lose any money.

You earn 45 coins per tip which means you get 135 coins per bartending shift. The exception to this is your first four shifts of serving drinks where you will only earn 24 coins per tip before being promoted.

Drink with soliders

The soldiers are only meant to be talked to during certain quests.

Gamble vs Ty Lee

Gambling on blackjack isn't an effective or time efficient way to make money, so there's not much reason to play it.

2. Training:

Training increases your firebending level. The higher your level, the more damage you do in battles.

Palace:

Azulas room

Her room is the location of many events and scenes, and is also a place you will frequently visit while doing quests.

Throne room

The throne room is available during the day and is the location of the Azula throne room scenes.

Leave City (combat):

When you win a battle you will receive 30-50 coins and have a 50% chance to have a fresh girl added to the farm.

Armory:

At the armory you can buy armor for yourself, two troops to help you in battle, and health bonuses for both troops.

When you buy one of the four armors you are automatically given the health bonus it provides, however you can only have one set of armor equipped at a time. This means it's a good idea to only buy the best armor since previous armors don't give retroactive bonuses, i.e. they are a waste of money. If you save your money during the first few days of the game it's possible to buy the Dragon armor on day 5.

At night the armory is also the location of Mai's scenes.

3. Farm Mechanics (simple version):

Use `Ctrl` to speed up farm visits/milking

#1 - Visit the farm every day at night

#2 - Milk used girls

#3 - Fuck girls who aren't pregnant

#4 - Pregnant -> Milk -> Nipples -> Let her cum

#5 - Leave farm

3. Farm Mechanics:

How do I get more girls?

Once you unlock the farm every time you win a battle you get +1 fresh girl. You can also buy used girls for \$250 at the shop but it's a waste of money, so never buy them.

How does pregnancy work?

20 days must pass for a pregnant girl to give birth. After a pregnant girl gives birth she becomes a used girl.

How do Azula visits work?

Azula will visit you every 7 days to pay you. If you have 0 pregnant girls when she visits (this should only happen if you don't use the farm at all) she will give you +1 pregnant girls.

How much do I get paid?

5 coins per milking, 10 coins per birth.

Why shouldn't I just use the lever to milk the girls?

You can double the amount of money you make from the farm by using the method I describe in the simplified farm mechanics. If you just use the lever to milk the girls then: $\text{milk} = \text{used_girls} + \text{pregnant_girls}$ but if you use the method I discovered

then: $\text{milk} = \text{used_girls} + \text{used_girls_made_pregnant} + (\text{pregnant_girls} * 2) + \text{What is morality?}$

Morality isn't used in the love route and has no effect on anything in the love route.

- Save your game and have fun, if you lose reload your save
- I guess not

Crab Battles: (sigh, I'm going to *attempt* to explain this insanity)

- You can punch crabs and fight them yourself, or catch crabs and have them fight against crabs for you
- There are four types of crabs: Normal, Strong, Legendary, and Unique
- The first three can be caught on the beach, Unique crabs are given to you after winning tournaments
- If you own a crab that is one of the first three types and it reaches 0 hp, it will run away forever
- If you own a Unique crab and it reaches 0 hp, it will return to you after the battle is over
- Using a crab's special attack is 99% of the time better than using Snip
- Your # of pockets = the max # of crabs you can catch and carry
- You start with two pockets
- Potions can heal you or your crab, whichever is currently fighting
- You can buy more pockets and potions at the middle house from Shady

Your first battles:

- Just punch normal crabs to death
- Catch Strong or Legendary crabs (ideally catch two Legendary crabs)
- Keep chosing 'Fight Another!' unless you or your Legendary crab's health is low
- I got to level 16 before my Legendary crab's health got low
- Crabble Royale - World Champ
- Beach -> Walk around beach
- Buy potions from Shady at the middle house if you need them
- Left houses -> House path -> Snip snap, bitch (lol)

Battle vs Guard:

- This battle is super easy to win (+1 pockets) (Received Bessie)
- Middle house -> (buy potions if you need them) -> Battle Shady Guy

Battle vs Shady:

- This battle is super easy until you fight his last crab (+1 pockets) (Received Ol' Musky)
- Have at least two potions on you -> Sea

Battle vs Fishtits:

- You'll probably need to use two potions for this fight (+1 pockets) (Received The Stank)
- Beach -> Battle crabs until you're level 20

Back to the actual game:

- Shack -> Shack
- Shack -> Dock -> Get in boat -> Ocean -> Money
- Left houses -> House path
- Dock -> Feather
- Shack -> Mirror
- Shop -> Map
- Get drunk! -> Solve final riddle
- Choose any for the rest of today's choices

Day 3:

Morning:

- Middle house -> Blind man's bluff
- Have at least one potion
- Shack -> Shack -> I want your crabs (+1 pocket)
- Beach -> Crab battle -> Quit after one win
- Beach -> Visit the girls
- Left houses -> Forest path
- Left houses -> House path -> Return to Azula (+1 firebending)
- Beach -> Visit the girls -> Volleyball -> Win three times
- Visit the girls -> Visit the girls
- Choose any
- Shack -> Shack -> Beach
- Let Mai tell them
- Truth will give a scene focusing on one girl of your choice; Dare will give a scene with all three

Ending:

Well, we're finally at the end of Book 2. We've done all the quests and scenes for the love route, and the only thing left is the ending. There are three different endings and each of them has unique scenes and a unique conclusion for the second book. I won't be saying what the endings are or what their unique scenes are since they are pretty interesting and I don't want to spoil them, so save your game and try the different endings if you want to see them all. Enjoy!

Completed Book 2!
