99.9% of Nigeria sees gaining admission into tertiary institution as a very difficult thing to achieve; I was once like that years ago when I wrote my first Unified Tertiary Matriculation, UTME examinations.

We all have the desire to be in the university system yet after sitting for the UTME exams and having passing the exams successfully we have that fear in our heart that we may not gain admission because of the competition in the country in pursuit of admission into tertiary institutions.

Sometimes we will be like "what if I don't gain admission?" now think it the other way "what if you gain admission".

To gain admission into tertiary institution is very easy as ABC, here are 6 things to do if you want to gain admission this year

- 1. Register for The Institution's Post UTME: The first step is to purchase the school's Post UTME form. Do well to register for the institution Post Unified Tertiary Matriculation Examinations known as the POST UTME, this exam is just a test of your knowledge so don't be afraid.
- 2. Get Past Post UTME Questions: Past questions really helped me during my Post UTME. Most tertiary institutions

in Nigeria do repeat questions from previous years each year, so I recommend reading past post UTME questions. Don't only read the question but study it, don't study it but meditate on it, don't only meditate on it but evaluate yourself with it. By doing so you will be conversant with some of their questions.

- 3. Prayer: Well I love this part but you can't do this without doing the steps in 1 and 2. Like my elder brother JV6 would say "Heaven help those who help themselves" and I reasoned that statement and found out its totally true. You can't be playing hide and seek and expect God to grant you admission without a sacrifice and putting your best.
- 4. Go for your exam: After doing the above step 1,2 and 3 the next step is going for the Post UTME and doing great exploits. Don't be scared you will excel if you really did the above steps. Congrats in advance as you gain admission this year.
- 5. Waiting for your admission: After exams all what we will be thinking of is Admission!!! Admission!!! Admission!!! Now let me make you smile, just pray and commit your admission into Gods hands and you are good to good.
- 6. Reliable Admission personnel: We can offer you reliable sources to gain admission into any tertiary institution in Nigeria. You might be scared if it's a scam but we have

helped few persons gained into institutions in Nigeria e.g. Niger Delta University, Delta state university, Nasarawa state university among others. If you will need a reliable source to gain admission this year kindly send a mail to <a href="mailto:infoprimebrains@gmail.com">infoprimebrains@gmail.com</a> indicating the institution you want to gain admission into. Reasons for this are because of security reasons.

Please send the mail in this manner:

SUBJECT OF MAIL: LINK TO GAIN ADMISSION 2017/2018 BODY: YOUR FULL NAME, NAME OF INSTITUTION YOU WANT TO GAIN ADMISSION INTO & MOBILE NUMBER.

I look forward to see your admission testimonies this year.

TEAM PB Cares!!!
