RE: ANNA PAULINA LUNA WINNING IN RACE FOR CONGRESS

DATE: AUGUST 14, 2026

In a recent survey of likely voters in Florida's 13th Congressional District (see methodology statement on last page), Fabrizio, Lee & Associates found that Congresswoman Anna Paulina Luna leads in her re-election bid for Congress. She is winning 49% of the vote, while Democratic candidate Leela Gray is getting 41%. The remaining 10% are undecided. Gray would need to win over the Undecideds almost universally to win this race, and this seems highly unlikely, given that they backed President Trump by nearly 20-points in 2024. With an advantage on the ballot, as well as being significantly more well-known to the voters of CD-13, Rep. Luna has the inside track on winning re-election to Congress.

If the election for Congress were held today and the candidates were (ROTATE) Anna Paulina Luna, the Republican, and Leela Gray, the Democrat, for whom would you vote? (IF CHOICE MADE, ASK: And would you say you are DEFINITELY voting for [CHOICE] or just PROBABLY voting for [CHOICE]?)	
ANNA PAULINA LUNA	**49%**
LEELA GRAY	**41**
Definitely Luna	43
Probably Luna	7
Probably Gray	7
Definitely Gray	34
Undecided	10

***METHODOLOGY STATEMENT**:* Fabrizio, Lee & Associates conducted a survey of 400 likely voters from August 4-6, 2026. The interviews were split 40% live-operator cell phone/15% live-operator landline/45% SMS to web. Gender, age, race/ethnicity, party, and education were matched to demographic profiles of likely voters based on the voter file and exit polls. Respondents were randomly selected from lists of known voters. The margin of sampling error at the 95% confidence interval is ±4.9%.
